**2014 Call
for Papers
Closes
Next
Thursday**

**Conference
Organizer**

Co-Organizer

BIO welcomes abstracts for paper, panel and poster presentations until December 12, 2013. New for 2014, the Growing Global Markets breakout track at the BIO World Congress on Industrial Biotechnology will highlight international technology platforms, draw attention to common and unique international policy issues, and provide a forum for discussion of new opportunities for business development and

company partnerships. The track aims to showcase regional clusters of industrial biotechnology around the world, featuring both established and emerging geographies.

The 11th Annual BIO World Congress on Industrial Biotechnology will take place **May 12-15, 2014 in Philadelphia** at the Pennsylvania Convention Center. BIO is proud to partner with PHLLife to bring this event to the Philadelphia area!

Benefits of
Speaking

- Gain personal and corporate recognition as an industry leader
- Share what your country, state or region is doing in the field of industrial biotechnology
- Get access to a valuable source of new clients, suppliers and strategic partners
- Reach powerful decision makers
- Receive discounted registration

Conference Features

- 1,200 attendees representing 37 countries
- A vibrant, 11 exhibit hall showcasing 70 companies and

- Organizations
- Over 600 meetings scheduled using BIO's One-on-One business partnering system
- Plenary sessions featuring key industry thought leaders
- 7 breakfast tracks with 56 sessions
- Specialized workshops
- Poster Presentations
- Clean Tech Investor Session
- Presentation of the George Washington Carver Award

Mark Your Calendar:

December 12, 2013- Deadline to submit an abstract
December 2013- Registration, housing & exhibit sales open
Early February 2014- Program Announced
March 31, 2014- Early Bird Registration Deadline
April 2014- BIO One-on-One business partnering open for attendees to schedule on-site

Our team had a lengthy conversation with USDA last week. We intend to have another conversation for the staff who have to engage on this at a technical level. We have some general agreement on applying the regulations both in general context and specifically in this case. I'll need to defer a final readout for you until after our next conversation with USDA. I believe we've established an "appropriate" way forward.

Chris and Paul -

Thanks for taking the time to meet with the folks at ABFA yesterday.

As you know, I work with Chemtex and we are very involved with the USDA re the importation of our cellulosic ethanol to the US from their Italian facility. I appreciated the update yesterday re: the conversations between EPA and USDA to try and move forward. I recognize that neither of you were a part of that call/meeting, but if you have further intelligence from yesterday's call/meeting that you can share, I would greatly appreciate it. We want to be sure that both agencies have everything they need from us and if there is additional information/clarification needed, we can get it to all parties expeditiously.

Again, thanks and I look forward to hearing from you.

Subject: thank you

Chris and Paul,

Thank you again for coming to our meeting today. This is one of the most anxious times we've ever had – and that is saying something considering that anxious has become our norm. So I know coming to speak to our members was not the easiest thing for you to do at this time, but it was a genuine demonstration of good faith and openness on your part. We really appreciate your commitment to listen, and dialogue and work to try to find solutions to our issues going forward. I was 100% sincere when I said that we have come to know your team, and the two of you in particular, and have tremendous respect for your professionalism, competence, and integrity. We know that you care about what you are doing and work hard to do the right thing.

We are at odds over this proposal currently, but we have been at odds before and have worked it out. Our members view this as a matter of survival, so we will have to apply as much attention to this as our capacity allows and then some. I personally consider the two of you to be gentlemen of the highest order and gladly accept your offer to do what you can to work through this. I likewise commit to you that we will do anything we can do to be helpful and constructive in this process to try to produce a satisfactory outcome for everyone. Please call or email me any time about anything; there is nothing more important right now than this rulemaking. My cell number is (b) (6). Thank you again.

Sincerely,

Joe
